

Reception News

Summer 2 Week 2 – 13th June 2025

What have we been learning?

- ◆ This week has been our Little Wandle assessment week (due to the last half-term being such a short one!), so we have been recapping all of our tricky words, digraphs and trigraphs in our phonics sessions.
- ◆ In Maths this week we have been learning how to group objects fairly into sets of 2s, 5s and 10s. We have also learned how to form number **16** on “Ten Town” too.
- ◆ In our Understanding the World sessions this week, we have learned that the word “**palaeontologist**” describes a scientist who studies dinosaurs. We were really interested in looking at pictures of dinosaur footprints on rocks, dinosaur eggs and dinosaur bones, both in museums and when they were still buried in the ground.

Having fun getting into groups of 2, 5 or 10!

Transition to Y1

We are beginning to talk about when the children will move into their next class, in order to start the transition process gently. As such, we would really appreciate it if you were able to have a chat with your child to ask them how they're feeling about moving into their new class in September. Please can you jot down what they say on their Home Story for this week? We will then try to alleviate their worries as this half-term progresses through our future class discussions and visits to the Y1 classroom.

Thank you for your continued support.
Mrs Short, Mrs Silvester & Mrs Dietz

Homework

Literacy

- Sounds - Please keep revising all of the sounds using the little brown sound books.
- Reading books - *Please write us a comment to let us know how your child gets on at home.*
- Completing the phonics sheet in their Yellow Books independently.

Maths

- Sharing - have a look at the “Home learning challenges” to let you practise grouping & sharing different amounts of objects, like we have been thinking about this week in school.
- Have a look at Episode 16 & the activities relating to **number 16** on the “**Ten Town**” website.

On **DB Primary** we are continuing to add links to useful websites, for example there is a new tab with links to websites that your child might like to look at relating to our new “**Land Before Time**” topic.

We have also been adding some more dinosaur related website links to the “**Dinosaur Online Stories**” tab too.
